

Coordinatore Tecnico ai LNGS

- The role of “Coordinatore Tecnico” (Technical Coordinator) is introduced to facilitate the work of the Project Manager (PM) for the technical aspects of the activities at LNGS.
- This role was already anticipated at the time of the introduction of the Project Manager and it is now mandatory as the activities for CYGNO-04 are starting underground.
- This role is requested by LNGS who needs to have a “Coordinatore Tecnico” (“Technical Coordinator”) as a contact persons for any activity

Coordinatore Tecnico ai LNGS

- The “Coordinatore Tecnico” at LNGS:
 - will be responsible of the all the links with the technical services at LNGS (Engineering, Safety, Contracts) except for the computing;
 - will coordinate, in contact with the PM, all our activities at LNGS;
 - will serve as contact person for the activities of the companies working for us (including transports, authorizations, etc), as an example for the works in Hall-F;
 - will take as well the roles of GLIMOS and RAE;
 - will be a member of the Steering Committee.
- The mandate of the Coordinatore Tecnico at LNGS will have a term. This term will be decided together with the terms of all the roles in our collaboration in a document to be released soon.

Coordinatore Tecnico ai LNGS

- The PM and the SPs propose the nomination of Davide Fiorina as Coordinatore Tecnico
