

Session Program

11-14 Nov 2025

WIFAI 2025: Workshop Italiano sulla Fisica ad Alta Intensità

Spectroscopy

Centro polifunzionale per gli studenti - Bari
Piazza Cesare Battisti, 1 70121 Bari

Thursday 13 November

09:00

Spectroscopy

Session | **Location:** Centro polifunzionale per gli studenti - Bari, Piazza Cesare Battisti, 1 70121 Bari

09:00–09:30 **A review on the theory of exotic hadrons**

Speakers

Angelo Esposito, Angelo Esposito

09:30–09:55 **Status and perspectives of heavy and light spectroscopy at BESIII**

Speaker

Isabella Garzia

09:55–10:20 **Heavy spectroscopy studies at BelleII**

Speaker

Federico Testa

10:20–10:45 **The ePIC detector at the EIC**

Speaker

Dr Alessandro Pilloni

10:45

11:15

Spectroscopy

Session | **Location:** Centro polifunzionale per gli studenti - Bari, Piazza Cesare Battisti, 1 70121 Bari

11:15–11:45 **Born-Oppenheimer EFT models for multiquark states**

Speaker

Antonio Vairo

11:45–12:10 **Status and future prospects on heavy spectroscopy at LHCb**

Speaker

Elisabetta Spadaro Norella

12:10–12:35 **Heavy hadron spectroscopy at ATLAS and CMS**

Speaker

Valentina Mariani

12:45
