

LA THUILE 2025 - Les Rencontres de Physique de la Vallée d'Aoste

Tuesday, 11 March 2025

Flavour physics of quarks and leptons (17:40 - 18:50)

-Conveners: Benjamin Stefanek

time	[id] title	presenter
17:40	[19] Tackling the g-2 anomaly with MUONE	PILATO, Riccardo Nunzio
18:05	[20] The hadronic contribution to g-2	COLANGELO, Gilberto
18:30	[21] Probing Axion-Like Particles at the LHC	BIEKOETTER, Anke

Wednesday, 12 March 2025

Flavour physics of quarks and leptons: continued (08:30 - 11:20)

-Conveners: Matthias Neubert

time	[id] title	presenter
08:30	[22] Heavy flavor measurements from ATLAS and CMS	GALLONI, Camilla
08:55	[23] Beauty and charm physics at Belle and Belle II	VERONESI, Michele
09:20	[24] Newest results on charm physics from BESIII	SONG, Yunxuan
09:45	Coffee break	
10:10	[25] Progress and open challenges in non-leptonic B- and D-meson decays	PISCOPO, Maria Laura
10:35	[26] CKM & CPV in charm and beauty at LHCb	MACCOLINI, Serena
11:00	[27] Classical and Exotic Spectroscopy at LHCb	NERI, Nicola

Flavour physics of quarks and leptons: continued (16:30 - 18:50)

-Conveners: Gino Isidori

time	[id] title	presenter
16:30	[28] Tau and dark sector physics at Belle and Belle II	CAMPAJOLA, Marcello
16:55	[29] Recent results on K rare decays from NA62	BRIZIOLI, Francesco
17:20	[30] Rare and Semi-leptonic Decays at LHCb	MITZEL, Dominik
17:45	Coffee break	
18:05	[31] Flavor physics beyond the SM	ALLWICHER, Lukas
18:30	[32] New Physics Through Flavor Tagging at FCC-ee	VALENTI, Alessandro
