

Legnaro, December 21, 2011

Dear Colleagues,

We are pleased to announce that the workshop:

ECOS 2012: Advances and challenges in nuclear physics with high intensity stable beams

will take place in Villa Vigoni, Como lake, Italy on June 18-21, 2012 (<http://www.villavigoni.eu>).

The focus of the workshop will be on the perspectives of low energy nuclear physics with stable beams as well as on the status and perspectives of present and future European Nuclear Physics stable ion beam facilities.

Detailed information about the meeting will soon be available on the workshop website:
