

# ECOS 2012

## Monday, 18 June 2012

### Nuclear Physics and Astrophysics I (16:30 - 19:30)

time	[id] title	presenter
16:30	[6] The description of shape coexistence in proton-rich nuclei:status and perspectives	BENDER, Michael
17:00	[7] Nuclear structure far from stability and the effective nucleon-nucleon interaction	LENZI, Silvia
17:30	Coffee break	
18:00	[9] Yrast spectroscopy of neutron-rich nuclei - present status and perspectives with high intensity stable beams	FORNAL, Bogdan
18:30	[10] Possibilities offered by high intensity stable beams for reaction mechanism studies at Coulomb barrier energies	CORRADI, Lorenzo
19:00	[11] Isospin Effects on Heavy Ion reactions studied with stable beams in the range of Energy 10-30 AMeV	PIRRONE, Sara
