

GIANTS 2025

Friday, 4 July 2025

Facilities and New Technologies (09:30 - 10:30)

-Conveners: Domenico Santonocito

time	[id] title	presenter
09:30	[19] Detector characterization for a new $^{12}\text{C} + ^{12}\text{C}$ reaction study at Bellotti Ion Beam Facility	GESUÈ, Riccardo Maria
09:50	[20] Astrophysics reaction in laser induced plasma	LATTUADA, Dario
10:10	[21] Half-life of ^7Be in different environments and different charge states	GIALANELLA, Lucio BUOMPANE, Raffaele

Facilities and New Technologies (11:30 - 12:30)

-Conveners: Sara Palmerini

time	[id] title	presenter
11:30	[26] Neutron activation measurements in the n_TOF irradiation station	SPELTA, Michele
11:50	[27] The construction of the PANDORA facility: updates and perspectives	NASELLI, Eugenia
12:10	[28] Carbon-Oxygen Shell Interactions in Massive Stars: Nucleosynthesis and Implications	ROBERTI, Lorenzo
