

Elba planning discussion

Thursday, 22 March 2012 10:00 (1 hour)

In addition to general discussion of the physics programme at the Elba meeting, we defined the following foci that we want to explore in more detail:

Bs Physics

Charm Physics

Use of polarisation

This session will be discussing topics that we expect we can have discussions on and trying to identify external speakers who can join us in La Biodola for the next SuperB Physics Workshop

Session Classification: Parallel VIII: Physics
