

New Frontiers in Theoretical Physics - XXXVIII Convegno

Nazionale di Fisica Teorica

Wednesday, 21 May 2025

Formal aspects (09:40 - 10:55)

time	[id] title	presenter
09:40	[140] The moments of the spectral form factor in SYK	LEGRAMANDI, Andrea
09:55	[126] Foundational aspects of Supersymmetry via the Dressing Field Method	RAVERA, Lucrezia
10:25	[125] N=1 supergravity Lagrangian from the Double Copy	DESCONTUS, Valerio
10:40	[132] Light spin-3/2 particles need gravity (and broken SUSY)	ROMANO, Marcello

Formal aspects (11:25 - 12:10)

time	[id] title	presenter
11:25	[146] Numerical Methods for Holography	GILIBERTI, Mauro
11:40	[163] Monopole-fermion scattering in a chiral gauge theory	BUCCIOTTI, Bruno
11:55	[165] Weak rates in strongly coupled cold quark matter	OLZI, Andrea

Thursday, 22 May 2025

Formal aspects (17:10 - 17:25)

time	[id] title	presenter
17:10	[156] UV asymptotics of the generating functional of correlators of superfield twist-2 operators in $\mathcal{N}=1$ SYM theory	SANTONI, Giacomo
