

Istituto Nazionale di Fisica Nucleare
SEZIONE DI PADOVA

Welcome to Padova!

The choice of the place came naturally:

we have the **hope** to build an attractive and fruitful experiment, with **faith** in our skills and will.

One thing was missing...

The **Sala della Carità** in Padova is a historic hall located within the former Confraternity of Charity complex, near the Church of San Francesco Grande, a private building donated to the Scuola della Carità di Maria in 1421. The frescoes and the wooden ceiling were realized in 1579 by Dario Varotari, it served as a meeting place for charitable and religious activities.

Anything else?

...don't be shy, ask me/Caterina/Elena/Marina

Time for thanks is usually at the end...

- ...but everybody is usually in a hurry and tired... and I really care to give my heartfelt thanks to all the local people who contributed to the organization of this meeting...
- Yes, “it’s their job”, but the way they do it makes a difference
- Here “on the front” you see Marina Andreazzo, Elena Colombo, Caterina Pantouvakis
- “Big Sister” behind the scenes: Pina Salente
- ...and the services of the INFN Division: administration, outreach, computing , director’s office...

cannot name them all...but THANK YOU!
