

# Highlights from new physics searches in Heavy Flavour Experiments

*Monday, 21 May 2007 12:50 (30 minutes)*

The present status of new physics searches in flavour experiments is reviewed. Measurements that indicate possible deviations from the standard model are listed, with a special emphasis on results from two B-factories. Prospects for future experiments are also mentioned briefly.

**Presenter:** Prof. HAZUMI, Masashi (KEK, Tsukuba)

**Session Classification:** Welcome and Overview

**Track Classification:** Welcome and Overview
