

ChPT progress on non-leptonic and radiative decays

Tuesday, 22 May 2007 11:20 (30 minutes)

I discuss selected topics on non-leptonic and radiative kaon decays mainly related to direct CP-violation within the combined ChPT and large N_c approaches.

Presenter: Prof. PRADES, Joaquim (Granada University)

Session Classification: Session II

Track Classification: Non leptonic/ radiative decays
