

# QUART&T Kick-Off Meeting

Friday, 21 February 2025

**WP2: Design and simulations of planar (2D) devices (10:00 - 10:45)**

-Conveners: Felix Ahrens; Danilo Labranca

time	[id] title	presenter
10:00	[1] Design and simulation of single and coupled qubits towards tunability	MORETTI, Roberto
10:15	[3] Tunable Couplers and Their Applications in Analog Quantum Simulations	CATTANEO, Alessandro
10:30	[4] Compact Purcell filter design for superconducting qubit readout	ZACCARIA, Simona
