

# Young Researchers Meeting In Rome 2012

## Friday, 20 January 2012

### Session - II : Nuclear and Astroparticle Physics (11:40 - 13:00)

| time  | [id] title  | presenter |
|-------|---|-----------|
| 11:40 | [6] Kaonic atoms measurements at the DAFNE collider: the SIDDHARTA experiment                                       |           |
| 12:00 | [7] Monte Carlo simulations of microbeam radiation therapy with carbon ions for an interleaved irradiation geometry |           |
| 12:20 | [8] The ALTEA and ALTEA-Shield experiment onboard the International Space Station                                   |           |
| 12:40 | [9] Direct proof of Cosmic Ray acceleration by Supernova Remnants with the AGILE satellite                          |           |
