

# Young Researchers Meeting In Rome 2012

## Friday, 20 January 2012

### Session - IV : Astrophysics and Condensed Matter Applications (16:40 - 17:40)

time	[id] title	presenter
16:40	[15] The birth of "Tor Vergata" Fabry-Pérot interferometer	
17:00	[17] Structural, electronic and optical properties of the two isomers of Si(111)2x1	
17:20	[18] Gibbs and Helmholtz ensembles for flexible and semiflexible polymers with elastic bonds
