

QCD@Work - International Workshop on QCD - Theory and Experiment

Monday 18 June 2012

Parallel 2A (16:50-18:10)

time	[id] title	presenter
16:50	[16] Measurements of associated production of vector bosons and heavy flavours with the CMS detector	CASASSO, Stefano
17:10	[17] Probing QCD with jets, photons and weak bosons at the LHC with ATLAS	COOPER, Ben
17:30	[18] A first prediction of the electromagnetic rare decays $\eta' \rightarrow \pi^0 \gamma \gamma$ and $\eta' \rightarrow \eta \gamma \gamma$	ESCRIBANO, Rafael
