## Papers

- **Saturation**: arrived today first review from EPJC. They ask for major revisions. 8 weeks (10 Sept) to provide and answer;
- **3D reco**: still under revision in EPJC;
- **Methane paper**: the missing plot was sent and accepted by the author that are now going to provide a new version;
- **Simulation-Digitization**: finalising the refurbishing after internal review;
- **NID**: see Elisabetta's slides;

There will be a meeting for the implementation of a “data-driven digitisation” at the beginning of August with people working on this topic
