

CYGNO General Meeting

25/09/25

INFN funds for 2026

- There have been the annual INFN committee for the financial assignments;
- W.r.t. a total request of 108 k€, CYGNO funds for 2025 are 74 k€: 25 k€ for travels and 50 k€ for material and consumables;
- Positive comments from referees about the development in the data analysis and the comparison with LIME background;
- Still some criticism on the delayed installation of CYGNO04;
- Main message: keep the new pace and start CYGNO04 installation underground between December and January;
- LNF: 5k funded in 2025 for humidity and oxygen sensors;

Collaboration Meeting

- Annual Collaboration Meeting will be held on 17-19 December in Clusone (Clüsù), an “historical mountain city” in the north of Italy close to Milan and Bergamo;

Collaboration Meeting

- By plane or train you can go to Bergamo (BGY) and then take a 1h bus travel from there;
- More detailed travel information here;
- Time schedule still to be defined, with the idea of closing on the 19 at lunch;
- There could be some cars from Rome and L'Aquila to reach Clusone directly. If you are interested, please contact davide.fiorina@gssi.it
