INTRANS Workshop

2-5 February 2026

LNL, Legnaro, Italy

FIRST CIRCULAR

The INTRANS (Instrumentation and Training for Nuclear Spectroscopy and Reaction Dynamics) Service Improvement, subtask of the EURO-LABS Horizon EU program, promotes the coordination between the research infrastructures and research groups involved in nuclear spectroscopy and reaction studies, to optimize the use of valuable resources and to enhance synergies among researchers on a broad European scale for frontline research.

The first INTRANS workshop was organized in Orsay in January 2024. The aim of the INTRANS 2026 Workshop is to update the status and perspectives of gamma-spectroscopy research in Europe. Sessions will be dedicated to the presentation of recent theoretical studies, the latest results obtained at international gamma-ray facilities, the discussion of the challenges of future research and the development of new instrumentation for nuclear spectroscopy and nuclear reactions.

Review talks are planned with ample time scheduled for discussion. These reviews will be followed by shorter contributions selected from the submitted abstracts.

WORKSHOP VENUE

The workshop will take place in Legnaro, Italy. Legnaro is situated about 8 km south-east of Padova.

The workshop will be held in the Auditorium Villi of the INFN Legnaro National Laboratories (LNL). Detailed information on how to reach LNL and accommodation, can be found on the workshop web site
