

EUROPEAN RADIATION RESEARCH 2012

Tuesday, 16 October 2012

Biological and Physical Dosimetry - Main Hall (10:00 - 12:30)

time	[id] title	presenter
10:00	[11] MULTIBIODOSE: multi-disciplinary biodosimetric tools to manage high scale radiological casualties	Prof. WOJCIK, Andrzej
10:30	Coffee break	
11:00	[30] Synthetic diamond dosimetry	Prof. BUCCIOLINI, Marta
11:30	[40] Radiation exposure in paediatric interventional cardiology in France	Dr BAYSSON, Helene
11:45	[51] Linking the Human Response to Unplanned Radiation and Treatment to the Nonhuman Primate Response to Controlled Radiation and Treatment: A New Approach to Compare Human and Animal Data	Prof. MEINEKE, Viktor
12:00	[68] The effect of KOH on Electron Paramagnetic Resonance signals measured in irradiated bone.	Mrs KREFFT, Karolina
12:15	[185] Gene expression and cYtokine Monitoring for Biodosimetry and RAdiation Sensitivity Screening (GYMBRASS)	Prof. BAATOUT, Sarah
