

EUROPEAN RADIATION RESEARCH 2012

Thursday, 18 October 2012

Awardees 2 - Hall "E" (13:30 - 15:45)

time	[id] title	presenter
13:30	[15] DISTRIBUTION OF RADIONUCLIDES IN WATER-SOIL-PLANT SYSTEM IN DIFFERENT ZONES OF THE ARMENIAN NPP	Ms ASATRYAN, Ani
13:45	[24] Whole-body irradiated Balb/c mice can be protected against experimental Francisella tularensis infection by passive transfer of immunity	Mrs KUBELKOVA, Klara
14:00	[45] Infrared light induced the transgenerational genomic instability on mice	Mrs DYUKINA, Alsu
14:15	[52] Neutron dosimetry by means of Electron Spin Resonance (ESR) technique	Dr MARRALE, Maurizio
14:30	[56] Reduction of porphyrins in aqueous solution in the presence of DNA. Pulse radiolysis studies.	Mr STRÓZIK, Tadeusz
14:45	[64] Radiation-induced transgenerational carcinogenicity: a study with a tumour susceptible mouse model	Dr PARIS, Lorena
15:00	[144] Does Resveratrol affect radiation-induced chromosome damage? A multiparametric study on human lymphocytes exposed in vitro	Dr BASSO, Emiliano
15:15	[174] CELLULAR AND MOLECULAR EFFECTS INDUCED BY 45 MeV C-IONS AND GAMMA RAYS IN NORMAL HUMAN PRIMARY FIBROBLASTS.	Dr FRATINI, Emiliano
