

33rd International Workshop on Deep Inelastic Scattering and Related Subjects (DIS2026)

Monday 4 May 2026 - Friday 8 May 2026

Hotel Carlton

Scientific Programme

The DIS2026 Workshop will cover a broad range of topics reflecting the latest developments and challenges in Quantum Chromodynamics and Deep Inelastic Scattering as well as a general survey of the hottest topics in high energy physics.

Parallel Sessions

Structure Functions and Parton Densities

Small-x, Diffraction and Vector Mesons

Electroweak Physics and Beyond the Standard Model

QCD with Heavy Flavors and Hadronic Final States

Spin and 3D Structure

Current Upgrades and Future Experiments
