

nuTURN2012 - Neutrino at the Turning Point

Thursday, 10 May 2012

Session 4 - Pt. 2 - Chair R. Battiston - FUTURE PROJECTS FOR EUROPE - E. Fermi auditorium (09:15 - 15:00)

time	[id] title	presenter
09:15	[17] Expression of interest for a very long baseline neutrino oscillation experiment (LBNO)	RUBBIA, Andre
09:50	[20] Talk on future perspectives for the Gran Sasso Laboratory to host new detectors for neutrino physics searches	VOTANO, Lucia
10:15	[19] Talk on a new shallow laboratory near LNGS	RUBBIA, Carlo
10:50	Coffee break	
11:10	[21] Future high intensity beams at CERN	EFTHYMIPOULOS, Ilias
11:45	[23] About the possibility of measuring CP at LNGS	LONGHIN, Andrea
12:20	[25] Long term perspectives for novel neutrino sources: Beta Beams and Neutrino Factories	LONG, Ken
12:55	Lunch break	
14:25	[26] Talk on the physics case for a RAL-based Neutrino Factory with a detector at Gran Sasso in a large θ_{13} scenario	COLOMA, Pilar
