

Working Group on Radiative Corrections and Generators for Low Energy Hadronic Cross Section and Luminosity

Monday, 16 April 2012

Radiative Corrections and MC generators - Aula Conversi (15:00 - 16:30)

time	[id] title	presenter
15:00	[1] Current status of the luminosity measurement with CMD-3 detector at VEPP-2000 e+e- collider	FEDOTOVICH, Gennady V.
15:30	[14] Result on ISR at BES-III	DENIG, Achim
15:50	[2] Complete one loop corrections to e+e- -> mu+mu- gamma in PHOKHARA generator	GUNIA, Michal
