

ACCELERATING RESEARCH AND TRAINING

EuPRAXIA-DN Camp III Innovation

The EuPRAXIA Camps are open to everyone interested in the latest R&D results in plasma accelerators and not limited to members of EuPRAXIA. Participants are asked to suggest their contribution during registration and indicate if they would like to contribute a talk or a poster.

Generous discussion time will be included in each session and there will also be more general discussions at the end of each day linking between different areas. A poster session will complement the challenge-focused program.

TOPIC: The third EuPRAXIA Camp will delve into exploring the innovations that EuPRAXIA will enable. Talks will look into how combining new technologies can lead to innovative applications across medicine, biology, chemistry and material.

VENUE: University of Pécs, Hungary

DATE: 6 - 7 October 2025

REGISTRATION DEADLINE: 12 Sept 2025

STANDARD FEE: £250/£150 (students)

(The fee includes access to all workshop sessions, coffee breaks and lunches, welcome reception on Sunday, and a dinner on Monday.)
