

Advances in Modeling High-Energy Astrophysical Sources: Insights from recent multimessenger discoveries

Friday, 4 July 2025

Contributed talks: Galactic session (09:00 - 10:00)

time	[id] title	presenter
09:00	[48] CTAO LST–1 observations of magnetar SGR 1935+2154: deep limits on sub-second bursts and persistent TeV emission	PANEBIANCO, Gabriele
09:15	[49] Solar-system gamma-ray sources with Fermi-LAT	LIGUORI, Antonio
09:30	[50] Cosmic Rays' Energy Dependent Escape Time (CREDIT)	LOO, Chun Kai
09:45	[51] VHE binary systems with MAGIC+LST and brief introduction to SII	FRIAS, Fernando
