

Diffraction 2012

Wednesday, 12 September 2012

Spin Physics (III) (15:30 - 17:35)

time	[id] title	presenter
15:30	[21] NEW RESULTS OBTAINED WITH TRANSVERSELY POLARIZED PROTONS IN P-P COLLISIONS AT RHIC	Prof. IGO, George
15:50	[29] Transverse spin asymmetries in the CNR region in polarized proton-proton elastic scattering at STAR	Dr GURYN, Wlodek
16:05	[112] Recent results on the gluon polarization and W production program in polarized p + p collisions at RHIC	SURROW, Bernd
16:30	[74] Overview of Spin Structure Program at Jefferson Lab	PROK, Yelena
16:55	[57] Overview of Spin Studies at COMPASS	KUNNE, Fabienne
17:20	[75] Exclusive meson production at COMPASS	Mr SZNAJDER, Pawel
