Saturday, 15 September 2012

Progress in QCD (III) (11:10 - 13:10)

time	[id] title	presenter
11:10	[25] Evolution of cusped light-like Wilson loops, TMDs and geometry of the loops space	Mr VAN DER VEKEN, Frederik
11:30	[70] Photon impact factor and k_T -factorization for DIS in the next-to-leading order	Prof. BALITSKY, Ian
11:50	[76] NLO forward jet vertex	MURDACA, Beatrice
12:10	[43] Inclusive production of a pair of rapidity-separated, high p_T hadrons in proton collisions.	Dr IVANOV, Dmitry
12:30	[65] Mueller-Navelet jets in high energy hadron collisions	Dr CAPORALE, Francesco
12:50	[53] Description of the ATLAS jet veto measurement using the Banfi-Marchesini-Smye equation	Dr MARQUET, Cyrille
