Progress in QCD (I) (08:30 - 10:50)

time	[id] title	presenter
08:30	[18] Regge trajectories in QCD	Prof. EFREMOV, ANATOLII
08:50	[8] NLO BFKL kernel for the adjoint representation of the gauge group	Prof. FADIN, Victor
09:10	[2] BFKL Evolution as a Communicator Between Small and Large energy Scales	Prof. ROSS, Douglas
09:30	[111] Next-to-leading order corrections to the BKP evolution	Prof. BARTELS, Joachim
09:50	[108] Integrability of the BKP equations for multi-reggeon composite states and new solutions for the Odderon problem in LLA	Prof. LIPATOV, Lev
10:10	[66] Production of one and two $c\bar{c}$ pairs at LHC	Prof. SZCZUREK, Antoni
10:30	[56] Associated photon and heavy quark production within k_T -factorization	ZOTOV, N.P.
