

# Diffraction 2012

## Friday, 14 September 2012

### LHC and Post-LHC (II) (17:55 - 20:15)

| time  | [id] title   | presenter                |
|-------|--|--------------------------|
| 17:55 | [115] Low-mass, single- and double diffraction dissociation at the LHC                       | Prof. JENKOVSZKY, Laszlo |
| 18:15 | [80] Central Diffraction in Proton-Proton Collisions at $\sqrt{s} = 7$ TeV with ALICE at LHC | REIDT, Felix             |
| 18:35 | [110] Status and Perspectives of ALICE at the LHC  | HERRERA CORRAL, Gerardo  |
| 18:55 | [77] Measurement of the inelastic pp Cross Section with the ATLAS detector                   | Mr ZENIS, Tibor          |
| 19:15 | [59] Forward Physics at LHCb   | VOLYANKSYY, Dmytro       |
| 19:35 | [4] Diffraction at the LHC: anomalous couplings and diffractive Higgs                        | Dr ROYON, Christophe     |
| 19:55 | [60] Neutral meson production with ALICE at the LHC  | Dr BORISSOV, Alexander   |
