

DISCOVER COSMIC PARTICLES

INTERNATIONAL COSMIC DAY

November 13 | 2025

INFN - Sezione di Catania

Dipartimento di Fisica e Astronomia "E. Majorana", University of Catania

Cosmic particles, these unnoticed particles that surround us all the time, are the focus of this day. Students, teachers and scientists get together to talk and learn about cosmic particles from space and answer questions like:

What are cosmic particles?
Where do they come from?
How can they be measured?
And what can we learn from them?

Want to know more about the secrets they bring and be part of this collaboration?
