

Session Program

11-13 May 2026

**Superconducting Technologies for Dark
Matter**

Axions Haloscopes

Roma
Centro Congressi d'Ateneo, Via Salaria 113, 00198 Roma

Wednesday 13 May

11:10

Axions Haloscopes

Session | **Location:** Roma, Centro Congressi d'Ateneo, Via Salaria 113, 00198 Roma | **Convener:** Marco Vignati

11:10-11:35

The CADEX Experiment: Exploiting Superconducting Technologies for Axion Searches

Speaker

Alicia Gomez

11:35-12:00

Tuning in to low-mass axions with the DMRadio program

Speaker

Chiara Salemi

12:00-12:25

Advancing Axion and Gravitational Wave Searches at LNF

Speaker

Claudio Gatti

12:25-12:50

Hunting for QCD Axion Dark Matter with the Princeton Axion Search

Speaker

Saptarshi Chaudhuri

12:50
