Padova, 14 February 2026

Dear Friends,

We are writing in connection with the every-two-year informal meeting on “Selected Topics in Nuclear and Atomic Physics”, traditionally held in Fiera di Primiero, in the Italian Dolomites. The twentieth edition is planned from October 2nd to October 6th, 2026.

The meeting is traditionally based on a series of lectures on different subjects. The regular lectures may be supplemented, as in previous occasions, by seminars on topics of general interest.

All participants will be hosted at the Conca Verde Hotel in Fiera di Primiero. The total cost of participation, including full pension, is 600,00 Euro. Details on the payment of the fee will be soon available on the website of the meeting: <https://agenda.infn.it/e/Fiera26> .

As you well know this is a small gathering, run at a minimum budget. Because in Fiera di Primiero we must deal with a commercial hotel for everybody's accommodations, it is crucial to have an accurate view of how many will actually come. So if you, or some in your group, is interested in coming, please inform us via e-mail. If necessary, some supports for the accommodation of young people can be provided.

Best Regards,

Carlos H. Dasso, Edoardo G. Lanza, and Daniele Mengoni
