

Session Program

16-27 Feb 2026

**Frontiers in Nuclear and Hadronic Physics
2026**

***N. Brambilla - Nonequilibrium evolution of
heavy quark pairs in medium: open quantum
systems, NREFTs and lattice***

GGI

Tuesday 24 February

15:00

N. Brambilla - Nonequilibrium evolution of heavy quark pairs in medium: open quantum systems, NREFTs and lattice

Session | Location: GGI

16:00

16:00

N. Brambilla - Nonequilibrium evolution of heavy quark pairs in medium: open quantum systems, NREFTs and lattice

Session | Location: GGI

17:00

Wednesday 25 February

09:00
|
10:00

N. Brambilla - Nonequilibrium evolution of heavy quark pairs in medium: open quantum systems, NREFTs and lattice

Session | Location: GGI

Thursday 26 February

09:00

11:00

N. Brambilla - Nonequilibrium evolution of heavy quark pairs in medium: open quantum systems, NREFTs and lattice

Session | Location: GGI

Friday 27 February

11:15

13:15

N. Brambilla - Nonequilibrium evolution of heavy quark pairs in medium: open quantum systems, NREFTs and lattice

Session | Location: GGI
