

XII International Conference on Hadron Spectroscopy - Hadron07

Thursday, 11 October 2007

Baryon Spectroscopy - Aula A1 - H.E. Building (14:30 - 18:20)

-Conveners: Ulrike Thoma

time	[id] title	presenter
14:30	[61] Baryon Regge Trajectories in the Light of the $1/N_c$ Expansion	MATAGNE, Nicolas
14:50	[83] Properties of baryon resonances and strong decays	MELDE, Thomas
15:10	[105] Photoproduction of Neutral Mesons with CB-ELSA/TAPS	CREDE, Volker
15:30	[152] Evidence for new resonances in the combined analysis of recent hyperon photoproduction data	NIKONOV, Victor
15:50	[153] Properties of baryon resonances from combined partial wave analysis of the photo- and pion induced single and double meson production data	ANISOVICH, Alexey
16:10	[176] Hadron masses and chiral dynamics in the interacting instanton liquid model	FACCIOLI, Pietro
16:30	Coffee break	
17:00	[54] Baryon, heavy stable particle and strange meson production in ep collisions	DAUM, Karin
17:20	[106] Baryon Isospin Mass Splittings	CHAN, Lai-Him
17:40	[43] Linear Mass Rules and Hadronic Shells: the Baryons	PALAZZI, Paolo
18:00	[117] Towards a constituent quark model description of baryon spectroscopy.	VIJANDE, Javier

Friday, 12 October 2007

Baryon Spectroscopy - Aula A1 - H.E. Building (09:00 - 12:30)

time	[id] title	presenter
09:00	[118] A plausible explanation of the $\Delta_{D_{35}}(1930)$ as a $(\omega)\Delta$ induced resonance.	GONZALEZ, Pedro
09:20	[180] Dynamical Eightfold Way in Strongly Coupled Lattice QCD	FARIA DA VEIGA, Paulo Afonso
09:40	[182] Meson-Baryon Scattering and Resonances With Strangeness -1	OLLER, Jose Antonio
10:00	[29] Search for an exotic Θ^+ baryon in neutrino-nucleon interactions in the NOMAD experiment	SAMOYLOV, Oleg
10:20	[94] σ -Channel Threshold Enhancement in Double-Pionic Fusion*	BASHKANOV, Mikhail
10:40	[99] Excitation of the Roper Resonance in Single and Double-Pion Production*	SKORODKO, Tatiana
11:00	Coffee Break	
11:30	[35] Masses and magnetic moment of Charmed baryons in hyper central model	PATEL, Bhavin
11:50	[174] Heavy hadrons in the relativistic quark model	EBERT, Dietmar
12:10	[56] Masses and semileptonic decays of doubly heavy baryons in a nonrelativistic quark model	HERNANDEZ GAJATE, Eliecer
