

XII International Conference on Hadron Spectroscopy - Hadron07

Tuesday, 9 October 2007

Light Meson Spectroscopy - Aula Bruno Touschek (14:30 - 18:00)

time	[id] title	presenter
14:30	[22] A method to identify hadronic molecules and its application to $f_0(980)$	HANHART, Christoph
14:50	[25] Scalar Meson Photoproduction	DONNACHIE, Alexander
15:10	[11] Light scalar mesons at Kloe	NGUYEN, Federico
15:30	[14] Search for the $\phi \Rightarrow f_0/a_0 \gamma \Rightarrow KS KS \gamma$ decay at Kloe	FIORE, Salvatore
15:50	[150] Further study of the $f_0(980)$ and $a_0(980)$ mesons in a chiral Lagrangian framework	BLACK, Deirdre
16:10	[20] Light scalars as tetraquark: two-photon decay and comparison with quarkonia	GIACOSA, Francesco
16:30	Coffe break	
17:00	[51] Study $a_0(980)$ - $f_0(980)$ mixing from $J/\psi \rightarrow \phi a_0(980) \rightarrow \phi \eta \pi$	ZOU, Bing-song
17:20	[149] Analysis of Rare Radiative Decays of ϕ and Mixing Between Low and High Mass Scalar Mesons	TESHIMA, Tadayuki
17:40	[37] Radiative decays of hadronic molecules	NEFEDIEV, Alexey
