

# Low Radioactivity Techniques Workshop - LRT2013

## Wednesday, 10 April 2013

### Session 4 - Fabrication methods and surface contamination control - E. Fermi auditorium (16:00 - 16:45)

-Conveners: Lino Miramonti

time	[id] title	presenter
16:00	[69] Overview of wash-off, leaching and surface cleaning techniques	Dr CHKVORETS, Oleg
16:25	[41] Radon induced surface contaminations in low background experiments	Dr PATTAVINA, Luca Maria

### Session 4 - Fabrication methods and surface contamination control - E. Fermi auditorium (17:15 - 18:15)

-Conveners: Lino Miramonti

time	[id] title	presenter
17:15	[58] Low background techniques from XMASS	Dr OGAWA, Hiroshi
17:35	[13] Control of Radon-Induced Contamination in the DEAP-3600 Acrylic Vessel	Dr JILLINGS, Chris
17:55	[24] BiPo: A dedicated radiopurity detector for the SuperNEMO experiment	Dr GOMEZ, HECTOR
