

The Physics of the Sun and the Solar Neutrinos: 3rd

Tuesday, 9 October 2012

Session 2 - Experiments - Chair G. Bellini - E. Majorana lecture hall (11:15 - 13:30)

time	[id] title	presenter
11:15	[11] Final results of SNO	FIUZA DE BARROS, Nuno
11:50	[12] The physics case of SNO+ on solar neutrinos	OREBI GANN, Gabriel
12:25	[13] Search for modulations of the solar ^7Be flux in the next-generation neutrino observatory: LENA	OBERAUER, Lothar
13:00	[14] Implications of decay rate change of ^7Be in different terrestrial condition on beryllium neutrino flux	DAS, Parnika
