RICAP-13 is the fourth edition of the RICAP Conference. The acronym stands for Roma International Conference on Astroparticle Physics, the Conference is entirely dedicated to the study of high energy cosmic rays and it is organized by the three public Universities of Roma (University “Roma Tre”, University “La Sapienza” and University “Tor Vergata”). These Institutions provide both theoretical and experimental contributions and participate to major experimental projects in the field (AGILE, AMS, ANTARES, ARGO, Auger, CTA, Fermi, JEM-EUSO, KM3NeT, NEMO, PAMELA, ...). The Conference is held every two years. The first edition, in 2007, was held at the University “La Sapienza”, the second edition was hosted by University “Tor Vergata”, the third by University “Roma Tre”.

Scientific Topics

The aim of the Conference will be to present and discuss some of the most relevant theoretical and experimental results in the field of high-energy cosmic rays (gamma, neutrinos, charged cosmic rays). Special attention will be paid to the multi-messenger search for high-energy cosmic rays sources, including gravitational wave searches. A special session will be dedicated to Dark Matter search. The Conference will give the opportunity to collect experimental results from presently operating experiments. Experiments in progress and future projects will be discussed, debating on the different features and on sensitivities. Particular relevance will be given to the discussion of the open questions in high energy Astroparticle Physics.

**Publication of the Conference Proceedings**

We are still discussing with Elsevier for the publication of the Conference Proceedings on Nuclear Instruments and Methods in Physics Research, Section A (NIMA). The cost for one copy of the proceedings is included in the registration fee. Elsevier has already published the Proceedings of the previous editions of the Conference and we would like to continue with the same format. We want to publish the Proceedings as soon as possible after the end of the Conference and, of course, we want to guarantee the maximum of quality. Then each contribution will be submitted to referees. The procedure for the final acceptance of the contributed paper should be fast, in order to have all the material ready after the summer. For these reasons please note the following important dates:

<table>
<thead>
<tr>
<th>Event</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Starting date for the submission of the contribution to the Conference to proceeding</td>
<td>30/06/2013</td>
</tr>
<tr>
<td>Deadline date for the submission of the contribution to the Conference to proceeding</td>
<td>31/07/2013</td>
</tr>
</tbody>
</table>

**Conference Location**

The Conference will be held in the “Aula Amaldi”, at the first floor of the Physics Department of the University “La Sapienza” in Roma. The parallel sessions will be organized in "Aula Amaldi" and in "Aula Maiorana", at the ground floor of the Physics Department.

The University “La Sapienza” is located very close to the Roma centre and to the main Roma railway station Termini, which is directly connected, by train and by bus, to the Roma main airports, Roma Fiumicino and Roma Ciampino.

Please, check the indications "how to reach" at the [conference web page](#).

**Registration**

The registration fees for the RICAP-13 conference are summarized in the following table:

<table>
