

Session Program

22-24 May 2013

RICAP-13 Roma International Conference on AstroParticle Physics

Parallel Session G

Physics Department, University "La Sapienza", Roma, Italy
Piazzale Aldo Moro 2 00185 Roma

Thursday 23 May

16:45

Parallel Session G

Session | **Location:** Physics Department, University "La Sapienza", Roma, Italy, Aula Edoardo Amaldi (first floor) | **Convener:** Dr Carlotta Pittori

16:45–17:00

Gamma-ray observations of Cygnus X-1 in the hard and soft states

Speaker

Dr Sabina Sabatini

17:00–17:15

Transient gamma-ray emission from Cygnus X-3: AGILE observations and spectral constraints

Speaker

Dr Giovanni Piano

17:15–17:45

Recent results from the Borexino experiment and future perspectives

Speaker

Marco Giulio Giammarchi

17:45–18:05

GERDA: Recent Results and Future Plans

Speaker

Bjoern Lehnert

18:05–18:25

Cross section measurements of fusion reactions at astrophysically relevant energies: the LUNA experiment

Speaker

Dr Alba Formicola

18:30
