

RICAP-13 Roma International Conference on AstroParticle Physics

Friday 24 May 2013

VI Plenary Session - Aula Edoardo Amaldi (first floor) (11:30-13:30)

-Conveners: **Benedetto D'Ettorre Piazzoli**

time	[id] title	presenter
11:30	[4] Investigation of extensive air shower properties with the CODALEMA experiment : tackling the challenges of the next generation cosmic ray observatory.	Dr MARTIN, lilian
11:50	[108] Recent results from cosmic-ray measurements with LOFAR	Dr THOUDAM, Satyendra
12:10	[38] Identifying Neutrino Flavors in Radio Neutrino Telescope Experiments	Dr LAI, Kwang-Chang
12:30	[96] Multi-messenger search for gravitational waves and high energy neutrinos.	Dr DI PALMA, Irene
12:50	[105] Perspectives for UHE acoustic neutrino detection	SIMEONE, Francesco
