

International workshop. Cetacean echolocation and outer space neutrinos:
ethology and physics for an interdisciplinary approach to underwater
bioacoustics and astrophysical particles detection

Contribution ID: 98

Type: **not specified**

First Results on underwater acoustic background in SMO-KM3NeT aboard NEMO Phase II

Friday, 18 October 2013 12:20 (5 minutes)

Presenter: GRASSO, Rosaria (LNS)

Session Classification: Discussion and poster session
