

International workshop. Cetacean echolocation and outer space neutrinos: ethology and physics for an interdisciplinary approach to underwater bioacoustics and astrophysical particles detection

venerdì 18 ottobre 2013

Short talks - Session I (17:00 - 17:45)

time	[id] title	presenter
17:00	[64] SMO acoustic array: calibrations and first results	Sig. VIOLA, Salvatore
17:15	[82] Positioning System for neutrino telescopes: SMO and KM3NeT-Italia in Capo Passero	Sig.na LAROSA, Giuseppina
17:30	[67] Correlation between underwater noise level and AIS data in the Gulf of Catania (Sicily)	Sig.na PULVIRENTI, Sara Rita
