

# **International workshop. Cetacean echolocation and outer space neutrinos: ethology and physics for an interdisciplinary approach to underwater bioacoustics and astrophysical particles detection**

## **Saturday, 19 October 2013**

### **Submarine Multidisciplinary Observatories (08:30 - 12:30)**

time	[id] title	presenter
08:30	[16] EMSO - European Multidisciplinary Seafloor and water column Observatory	FAVALI, Paolo
09:20	[68] Expansion of the Ocean Networks Canada hydrophone network and linking with AIS monitoring	Prof. JUNIPER, Kim
10:30	Coffe Break	
10:50	[69] Bioacoustic results in NEMO-SN1 ONDE and way ahead with EMSO, the European Multidisciplinary Submarine Research Infrastructure	Prof. PAVAN, Gianni
11:40	[18] Listening to the Deep-Ocean: A global underwater noise monitoring initiative	ANDRE, Michel
