

International workshop. Cetacean echolocation and outer space neutrinos: ethology and physics for an interdisciplinary approach to underwater bioacoustics and astrophysical particles detection

Monday, 21 October 2013

Interdisciplinary approach to Computational (Bio)Acoustics (08:30 - 11:30)

time	[id] title	presenter
08:30	[22] Model-based bio-acoustics	ZIMMER, Walter
09:20	[23] 3D multiple whale tracking	GLOTIN, Herve
10:20	Coffee Break	
10:40	[24] Tracking Algorithms in Marine Mammal Acoustics	WHITE, Paul
