

MPI@LHC'08

Wednesday, 29 October 2008

Small x physics and diffraction (09:00 - 12:30)

time	[id] title	presenter
09:00	[24] CDF experimental results on diffraction	GALLINARO, Michele
09:30	[27] Theoretical estimates of gap survival	LEONID FRANKFURT
10:00	[25] Gap survival probability and rescattering in diffraction	ADA SOLANO
10:30	Coffee break	
11:00	[26] Gap survival probability and rescattering in diffraction (LHC)	MICHELE ARNEODO
11:30	[28] Forward jet close to rapidity gaps & Muller Navelet jets at the LHC	MARIO CAMPANELLI
12:00	[29] New phenomena in DIS at very high energies and it's impact on LHC	BORIS BLOC
