

Session Program

Oct 26 - 31, 2008

MPI@LHC'08

Small x physics and diffraction

Perugia

Wed, October 29

9:00 AM

Small x physics and diffraction

Session

9:00 - 9:30 AM **CDF experimental results on diffraction**

Speaker

Michele Gallinaro

9:30 - 10:00 AM **Theoretical estimates of gap survival**

Speaker

Leonid Frankfurt

10:00 - 10:30 AM **Gap survival probability and rescattering in diffraction**

Speaker

Ada Solano

10:30 - 11:00 AM **Coffee break**

11:00 - 11:30 AM **Gap survival probability and rescattering in diffraction (LHC)**

Speaker

Michele Arneodo

11:30 AM - 12:00 PM

Forward jet close to rapidity gaps & Muller Navelet jets at the LHC

Speaker

Mario Campanelli

12:00 - 12:30 PM

New phenomena in DIS at very high energies and its impact on LHC

Speaker

Boris Bloc

12:30 PM
