

14th International Conference on Nuclear Microprobe Technology and Applications

Friday, 11 July 2014

Session 10 - Nuclear Microprobe Applications: Geology and Environmental Science - Auditorium (09:00 - 10:30)

-Conveners: Per Kristiansson

time	[id] title	presenter
09:00	[105] High-Speed PIXE: Fast Elemental Analysis with a Colour X-Ray Camera	Mr BUCHRIEGLER, Josef
09:30	[58] Deuterium/Hydrogen microscopy in astrogeological material.	Mr ROS, Linus
09:50	[56] Measurement of ratios of oxygen isotopes with pNRA at a microprobe beamline.	Dr BORYSIUK, Maciek
10:10	[99] Elemental compartmentalization changes of marine diatoms as a reporter of biogeochemical cycles	PINHEIRO, Teresa
