

# Vulcano Workshop 2014 - Frontier Objects in Astrophysics and Particle Physics

## Thursday, 22 May 2014

### Cosmic Ray origin, Gamma and Neutrino Astronomy - Therasia Resort, Conference Room (09:00 - 10:40)

-Conveners: Guido Altarelli

time	[id] title	presenter
09:00	[56] Ground-Based Gamma-Ray Astronomy	SINNIS, Gus
09:25	[93] SNRs as cosmic accelerator	MICELI, Marco
09:50	[62] Cherenkov Telescope Array: Science prospects and project status	KNÖDLESEDER, Jürgen
10:15	[27] Crab observations with AGILE	PITTORI, Carlotta

### Cosmic Ray origin, Gamma and Neutrino Astronomy - Therasia Resort, Conference Room (11:00 - 13:05)

-Conveners: Antonella Castellina

time	[id] title	presenter
11:00	[19] GRB observations with Fermi	LONGO, Francesco
11:25	[94] GRBs in the multimessenger era	TROJA, Eleonora
11:50	[13] The MAGIC legacy to next generation of IACTs: results and prospects	CORTINA, Juan
12:15	[46] Flaring Gamma-ray AGNs	BUSON, Sara
12:40	[3] Correlation analysis between sky maps of Tibet cosmic rays and microwave observed with WMAP and Planck	ZHANG, Shuang-Nan
