

Vulcano Workshop 2014 - Frontier Objects in Astrophysics and Particle Physics

Wednesday, 21 May 2014

Particle Physics/Interactions/Astroparticle Physics - Therasia Resort, Conference Room (09:25 - 11:05)

-Conveners: Shuang-Nan Zhang

| time | [id] title | presenter |
|-------|--|--------------------|
| 09:25 | [91] Higgs bosons in the Standard Model and beyond | BERTOLUCCI, Sergio |
| 09:50 | [37] The Higgs and the excessive success of the SM | ALTARELLI, Guido |
| 10:15 | [63] Dark Z' : from direct detection to LHC | MAMBRINI, Yann |
| 10:40 | [51] LHC results and the interpretation of cosmic ray data | ENGEL, Ralph |

Particle Physics/Interactions/Astroparticle Physics - Therasia Resort, Conference Room (11:25 - 13:05)

-Conveners: Sergio Bertolucci

| time | [id] title | presenter |
|-------|---|---------------------|
| 11:25 | [58] Hadronic cross sections in extensive air showers and at accelerators | ULRICH, Ralf |
| 11:50 | [4] LUNA: from Sun to Novae and beyond | BROGGINI, Carlo |
| 12:15 | [11] The TeV Cosmic-Ray Anisotropy from Local Dark Matter Annihilation | HARDING, J. Patrick |
| 12:40 | [92] Astroparticle Physics at LNGS | RAGAZZI, Stefano |
