### Progress in QCD (I) (08:30 - 10:30)

-Conveners: D. Ivanov

time	[id] title	presenter
08:30	[180] On the BLM optimal renormalization scale setting for semihard processes	MURDACA, Beatrice
08:50	[196] Test of BFKL dynamics at the LHC	Dr ROYON, Christophe
09:10	[145] Renormalization group analysis of reggeon field theory	Dr BARTELS, Joachim
09:30	[150] Non-perturbative effects for the BFKL equation	Prof. LIPATOV, Lev
09:50	[130] The Green Function for the Discrete BFKL Pomeron	Prof. ROSS, Douglas
10:10	[125] Discontinuities of multi-Regge amplitudes in the next-to-leading order	Prof. FADIN, Victor
